## Board of Equalization.

The territorial board of equalization was in session Monday. A visit was made to the governor during which he was requested to give an opinion regarding the assessment of the Atlantic and Pacific road which runs through several of the northern counties. To fix the assessment rate of this road will be one of the most difficult matters which will come up before the board. Under a decision of the New Mexican courts the road is exempt from taxation. But a tax was demanded and a compromise was made with the northern counties. The assessment was fixed at \$2,500 per mile with a proviso that the railroad lands should not be more than 20 cents per acre. Some of the northern counties desire to repudiate any such provision. Attorneys for the railroad and counties are now in attendance at the meetings of the board.

## Played Out.

Dull headache, pains in various parts of the body, sinking at the pit of the stomach, loss of appetite, feverishness, pimples or sores are all positive evidence of impure blood. No matter how it becomes so it must be purified in order to obtain good health. Acker's Blood Elixir has never failed to cure Scrofulous or Syphilitic poisons or any other blood diseases. It is certainly a wonderful remedy and we sell every bottle on a positive guarantee. Sold by J. S. Williams & Co.

The Iron Age concludes a long article on copper with these words: "We believe that this review of the situation will prove that no very important additions to the copper supply need be expected during the current year, although there will be some expansion, unless some accident cuts off some large producer. During the first half of 1900 the preparations for an enlarged output will begin to tell heavily, and the year output to end with an unprecedented production of copper. To what extent in the meantime the present high prices of copper will check consumption it is difficult to gauge. That it is having that effect is firmly believed by many in the trade."

## A Frightful Blunder

## A Few Ancients.

The following from the Williams News apply strikes quite a few persons here in Bisbee:

"Whenever you hear a lawyer say that he doesn't believe in running his card in a paper, put it down that he is ancient. If you hear a doctor use the same doctrine, put him in the list, for he's a mediocrity. If it's a merchant that toots his horn in the same manner, label him a tossler; if it's any man in any kind of business that doesn't believe in advertising, and you cannot convert him with a moderate argument, leave him with good will and let him alone, for if he attempts to stay in the business arena it's only a question of short duration till old Father Time will make him die the death of a rag baby, as it's impossible for him to hold out against the man that advertises."

## New Teachers for the University.

There will be quite a change in the teaching force this coming year, says the Citizen. Prof. J. H. Hall will pursue studies at the Harvard university, after finishing a course at the Michigan university, where is now studying. His place has been filled by the appointment of Miss Mary E. P. Impton to work in English literature. Miss Phipps is a graduate of the Woman's college of Baltimore, and has done a large amount of post graduate work. She has been a most successful teacher for several years in the university of Southern California.

## If you find the way

to our dental parlors right now it may save you a lot of expense and pain a year from now. Some people aren't very much concerned about troubles that are a year in the distance, but a year will fly around in a very short time. It's neither expensive nor painful to have little cavities in the teeth filled. You'll be obliged for the hint.

## COPPER IS THE METAL.

The Cochise Copper Mining Company, Bisbee, Arizona.

This company owns a very valuable group of mines situated in Warren mining district, county of Cochise, Arizona, lying immediately east of and adjoining the town of Bisbee, and adjoining the property of the Copper Queen Consolidated Mining company on the north. The latter company has been in operation for about twenty years, and employs about 1,500 men daily in the operation of its mammoth mine and smelters, and as a result has produced copper to over 34,000,000 pounds during the year 1898, and the net proceeds of such production are reported to have been over \$2,000,000, and it has been said by experienced miners who have been under its employment for years, that the Queen mine now has sufficient ore in sight to keep it in constant operation for the next twenty years without further development.

Is it not reasonable to believe that the property of the Cochise company is fully as valuable, when it is within such close proximity to such a wonderful mine?

The blasts set off in the underground workings of the Queen property can easily be felt and heard at the shaft of our mine, and oftentimes the concussion has attracted marked attention.

The original owners of these valuable mines are local business men, well and favorably known in Bisbee and surrounding vicinity, who are doing their utmost to make this enterprise a success in every respect. The board of directors are original owners, and are donating their services to the company until such time as the mine will pay dividends. They own the controlling interest in this property, and as a protection to stockholders have placed their entire interest in escrow for a term of one year.

The stock books of our company are now open for subscriptions, and a limited number of shares are offered at ten cents per share. No application for less than 100 shares will be accepted.

The company reserve the right at any time to advance the price of shares without further notice, or to reject any application for stock at their discretion.

Every cent received from the sale of stock will be expended toward the development of our property and the erection of hoisting works, and all other necessary improvements, and to make our enterprise a success in every particular.

We invite investigators and their experts or their engineers to closely scrutinize our property.

Applications for shares may be made to any of the directors of the company, or to any of our legally authorized representatives.
